

Information of Covid-19 testing for Ski Jumping LOCs

Dear Ski Jumping organizers,

over the past weeks, we noticed that there is some confusion about the payment of Covid-19 tests. For this we want to point out again that every group is responsible for themselves to pay the tests:

- Each national team will pay for its members like athletes, coaches, service staff etc.
- Swisstiming and other timing & data providers pay for themselves (unless otherwise agreed between LOC and provider)
- FISMAG personnel is covered by FISMAG
- FIS Staff is paid by FIS
- TD, TDA and Judges are considered to be part of the LOC, therefore the LOC needs to cover the costs for Covid-19 testing. This means all tests necessary for arrival, staying at the event and departure (if necessary)
- Fore Jumpers are also part of the LOC. This means the LOC has to pay for their Covid-19 tests.

If you have contracts with one of the stakeholders stating different payment agreements for C19 tests, then this contract prevails.

Please consider Covid-19 tests as a part of your budget. Please also point out possibilities for testing after the event as more and more countries ask for negative tests result when re-entering from an event.

Thank you very much for your collaboration during these difficult times!

Kind regards,
Your FIS Ski Jumping Staff
